2. Structure

Series 1. History of Music in BC Research Project. 1850-1950, collected 1981-1989. 5,205 slides and 18 binders. Boxes 1-5.

Series includes 35 mm slides (negatives) of documents organized by location and/or subject. Series includes 35 mm negative film mounted in 2x2 slide holders, organized in plastic slide mounts, 20 to a page. Material consists of photographs or newspaper articles, programmes, photographs, and other documents collected in 1981-82 from communities across BC. Each slide is identified by letter and number: A1, A2, etc. through H759 with 150 slides each in series A, B, and C, 999 slides each in series D, E, F, and G, and 759 slides in series H, for a total of 5,205 images. The slides are fully indexed by place, subject, date, and description and the index is computer accessible. The index is located in Box 3.6-3.9

The series is arranged by location, individuals (i.e., portraits), and the Victoria photographs are arranged by subject. Photographs for which the provenance has not been possible are grouped in together with some negatives (others are located in the specific files), other illustrations, plus a series of remaindered printed plates from A Documentary History of Music in Victoria: Volume I, 1850-1899 (1981).
